BUSINESS BENEFITS

Save Time and Money

Delivers Office 365 as a cloud-based service is great for your bottom line. Reduce capital cost by replacing expensive licenses with low-cost subscriptions. It's a hosted solution so there's no maintenance or support on your part, virtually eliminating daily support costs.

Choose from Flexible Support Options

Most companies trust H&S Computer Consulting's experts to completely manage and support Office 365. Some clients manage Office 365 on their own, looking to us for support as needed. We've got the right option to fit your processes, goals and budget.

Count on Dependable Support

Whether you need to add or delete users, resolve mailbox issues or need help with other functionality, H&S Computer Consulting's Office 365 remote support is available 24/7/365 by phone, Web portal or email. Using remote control, our engineer engages direct with your end users. Our support team can remotely diagnose and resolve your issues more than 90 percent of the time. We'll also come onsite whenever necessary.

ABOUT H&S COMPUTER CONSULTING

H&S Computer Consulting is a team of talented experts dedicated to the health of your business, and we believe that technology plays an integral part in determining your success. From day one our team works to understand your business goals and provide solutions that fit your objectives. We help you plan for new innovations and offer the best resources and support available.

Get the Right Fit for Every User

H&S Computer Consulting supports all versions of Office 365—whether you need basic Web-only access or the most complete versions with advanced functionality. In fact, you can mix and match plans to give each user the capabilities they need, so you'll only pay for what you need, lowering your monthly costs.

Work Anywhere, Anytime on Any Device

H&S Computer Consulting keeps your team productive no matter where business takes them. Every level of Office 365 provides full browser-based access. Plus, with the option for access from any tablet or smartphone, you can stay connected and in control day and night.

Get Advanced Options to Extend Security

Microsoft Azure™ Rights Management makes it easy to restrict who can read an email, as well as forwarding, copying, printing and attaching emails. With Office 365 message encryption, users can send and receive encrypted email as easily as regular email directly from their desktops. Our cloud-based archiving gives you advanced features to help you retain and retrieve critical data for compliance.
